The "2024 Single-Use Ophthalmic Surgical Products Market Report" features new growth projections based on sustainability initiatives led by the ASCRS and ESCRS to cut ophthalmic operating room waste and reduce greenhouse gas emissions.

The report examines the trend of ophthalmologists resisting any move away from single-use surgical devices because of their convenience and the boon to patient safety they provide by reducing cross-contamination. It also analyzes the trend of the largest reusable instrument companies adding disposable instruments to their product offerings, thus expanding the market.

## Market Scope

# 2024 Single-Use Ophthalmic Surgical Products Market Report

The "2024 Single-Use Ophthalmic Surgical Products Market Report" examines global and regional markets for single-use ophthalmic surgical products. The report reviews cataract surgery, the dominant procedure in this market, as well as cataract surgery providers worldwide.

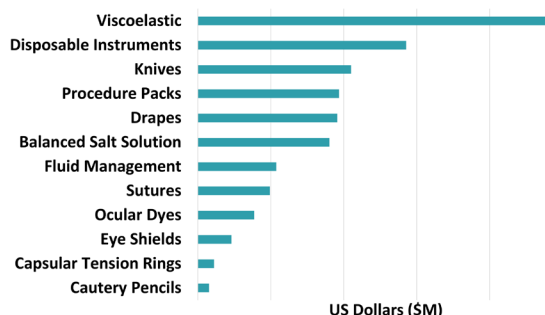

Market segments profiled are: viscoelastics, knives, disposable instruments, balanced salt solutions, procedure packs, drapes, sutures, fluid management devices, eye shields, ocular dyes, capsular tension rings, and cautery pencils.

The following information is included:

- Five-year forecast for the number of cataract, refractive, retinal, glaucoma, oculoplastic, and other ophthalmic surgeries by country/region and resulting single-use product sales by surgical subspecialty.
- A listing of the factors that will shape the single-use products market through 2028.
- Chapters for each of the 12 product categories, including product sales drivers, sales by surgical subspecialty, and key competitors' market shares
- Information on ophthalmic surgery providers.
- Profiles of companies in the single-use ophthalmic surgery products industry.

Each market segment includes an analysis of competitors and five-year forecasts for market performance. The report also includes an overview of ophthalmic surgeries, surgical providers in the US and worldwide, and 26 competitor profiles.

### Global Single-Use Surgical Products Market by Product Category

### Leaders in the 2024 Single-Use Ophthalmic Device Market by Market Share

Market segments profiled include viscoelastics, knives, disposable instruments, balanced salt solutions, procedure packs, drapes, sutures, fluid management devices, eye shields, ocular dyes, capsular tension rings, and cautery pencils.

Additionally, 25 companies are profiled, with discussion of their products, strategic market position, background, and outlook.
