The new “2024 European Five Ophthalmic Market Report” features updated estimates for all five markets and includes more products; new survey data from glaucoma, retina, and dry eye practices; and updates on the progress of the European Union Medical Device Regulation.

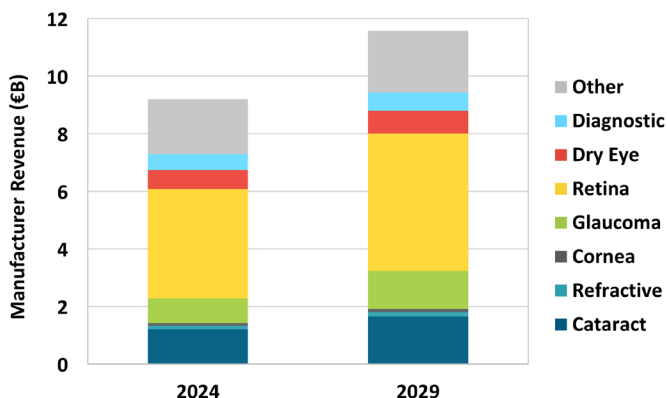

Market Scope

2024 European Five Ophthalmic Market Report

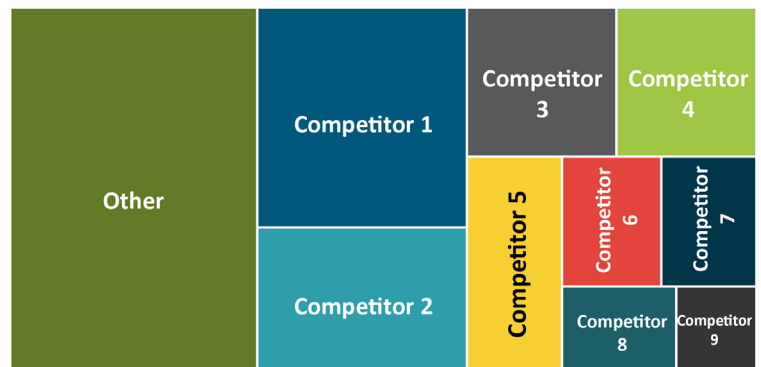

The “2024 European Five Ophthalmic Market Report” analyzes the ophthalmic market in Western Europe’s five largest economies, discussing important trends and key factors for future success in 11 ophthalmic submarkets. The report includes forecasts of disease prevalence, numbers of treatments, and technologies used in treatments. It profiles ophthalmic companies in the five markets, provides analysis of current markets, and offers five-year forecasts of market performance.

- Overview of the five largest Western European economies, with an analysis of population demographics, the economy, and health care infrastructure for France, Germany, Italy, Spain, and the United Kingdom
- Coverage of the following market segments: diagnostic equipment, multispecialty lasers, cataract equipment, intraocular lenses, refractive, glaucoma, retina, dry eye, cornea, single-use surgical devices, and surgical instruments
- Disease prevalence data
- Ophthalmologists, surgeons, optometrists, hospitals, and clinics
- Surgical treatments
- Surgical instrument and technology usage
- Ophthalmic pharmaceutical treatment regimens
- Five-year forecasts for market performance
- 27 competitor profiles
