

2017 Ophthalmic OR Microscopes Report:

A Global Market Analysis for 2016 to 2022

105

Great Reasons for You to Order This Report

7

Percent Growth is Expected Over the Next Five Years. The ophthalmic OR microscopes market is expected to top \$574 million in manufacturer revenues in 2022.

25

Charts and Tables are included with market forecasts, disease estimates, and data on ophthalmologists worldwide, as well as clinical trial data, Market Scope survey data, and more.

8

Geographic/Economic Breakouts: Market Scope provides market and disease prevalence data for the US, Western Europe, Japan, Other Wealthy Nations, China, India, Latin America, and Rest of World.

3

Ophthalmic OR Microscope Categories are analyzed in this report. We have organized our report into sections covering basic microscope models, standard microscope models, and advanced microscope models.

7

Years of Estimates and Forecasts. This report includes market data for 2016, and we forecast market performance through 2022.

2

Factors are contributing to growth: Growth will be driven by a combination of demand for newer and improved optics and illumination to replace those currently in use and expansion of eye care services in developing markets.

1

1st Edition of Market Scope's "**Ophthalmic OR Microscopes Report.**" Companies, investors, and entrepreneurs have used our reports over the past 20 years to assist in their planning and to better understand the ophthalmic market.

9

Companies that participate in the market are profiled in the report.

42

Pages Loaded With Comprehensive Coverage of market opportunities and challenges in the ophthalmic OR microscopes industry.

1

OBJECTIVE: To provide you with a **Competitive Advantage** that comes from knowledge and fresh perspective on the trends driving the ophthalmic OR microscopes market during the next five years.

A COMPLETE REPORT DESCRIPTION & TABLE OF CONTENTS FOLLOWS:

Market Scope® 2017 Ophthalmic OR Microscopes Report:

Author: Kristen Ingenito
Released: December 2016

New Report: *Ophthalmic microscopes have undergone a design renaissance in recent years with improvements in illumination and integrated diagnostics—developments that provide superior visualization, the promise of better surgical results, and significant increases in average sales price. Expansion of access to ophthalmic surgery in the developing world is another key microscope market driver. We expect these macro trends to drive a healthy compounded growth rate of 6.6 percent in global revenues through 2022.*

Our report on the ophthalmic operating room (OR) microscopes market is a new addition to our expanding portfolio of reports and is leading industry source for accurate and relevant information on all aspects of the global ophthalmic OR microscopes market. We cover background information about ophthalmic OR microscopes and have categorized our estimates into three categories, basic microscope models, standard microscope models, and advanced microscope models. Estimates include unit sales, installed equipment base, average prices, and information about the manufacturers that participate in the market.

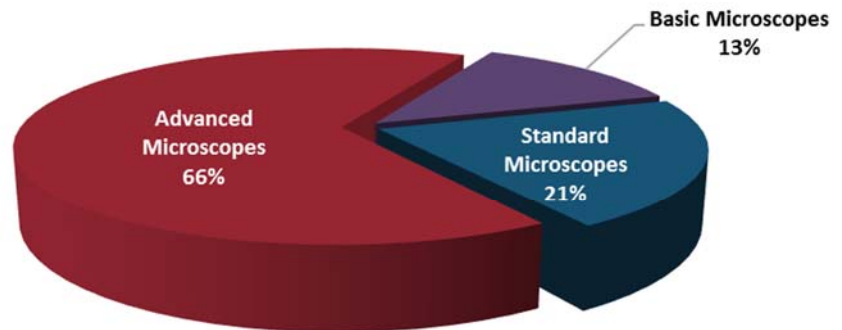

In this report we analyze worldwide markets using the following geographic/economic categories: the US, Western Europe, Japan, Other Wealthy Nations, China, India, Latin America, and Rest of World. This report includes market data for 2016, and we forecast market performance through 2022.

Market Scope's **2017 Ophthalmic OR Microscopes Report** provides in-depth coverage of the ophthalmic OR microscopes market opportunity.

Our Report is Organized into Key Areas and Includes:

- Background Information on Ophthalmic OR Microscopes
- 3 Categories of Ophthalmic OR Microscopes
 - Basic Microscope Models
 - Standard Microscope Models
 - Advanced Microscope Models
- Five-Year Forecasts for Market Performance
- 9 Company Profiles
- 16 Color Tables and 9 Color Figures

**Global Ophthalmic OR Microscopes Market
by Category**

The data included in our reports is based on surveys of ophthalmologists, reviews of clinical data, interviews with company executives, and analysis of company financial data.

About Market Scope

Market Scope is recognized as the leading source for accurate and timely industry information in ophthalmology. We have been conducting primary research and producing comprehensive reports on ophthalmic markets since 1996. Our data, analysis, and forecasts serve as starting points for many annual planning cycles, strategic plans, acquisition analyses, and return-on-investment decisions in the industry. In addition, our information is routinely included in annual reports, SEC filings, and investor presentations by leading ophthalmic companies.
