

Market Scope

2017 Retinal Surgical Device Report: A Global Market Analysis for 2016 to 2022

607 Great Reasons To Order This Report

6

PERCENT GROWTH IS EXPECTED OVER THE NEXT FIVE YEARS. The retinal surgical device market is expected to reach \$2.5 billion in manufacturer revenues in 2022.

150

CHARTS & TABLES are included with market forecasts, disease estimates, and data on ophthalmologists worldwide, as well as clinical trial data, Market Scope survey data, and more.

7

YEARS OF ESTIMATES AND FORECASTS. This report includes market data for 2016, and we forecast market performance through 2022.

8

RETINAL SURGICAL DEVICE CATEGORIES are analyzed in this report. We have organized our report into sections covering:

- Vitrectomy Machines
- Machine Packs
- Accessories and Allied Devices
- Non-invasive Procedures
- Single-use Surgical Products
- Artificial Vision Technologies
- Implantable Telescopic IOLs
- Other New Device-based Therapies

8

GEOGRAPHIC/ECONOMIC BREAKOUTS: Market Scope provides market and disease prevalence data for the:

- US
- Western Europe
- Japan
- Other Wealthy Nations
- China
- India
- Latin America
- Rest of World

9

FACTORS ARE CONTRIBUTING TO GROWTH:

- Rapid Growth in the Global Population Over Age 65
- More Surgeons Specializing in Retina Surgery
- Increase in the Number of Retinal Diseases That Can Be Treated with Vitrectomy
- Increases in the Incidence of Diabetic Retinopathy
- Expanded Access to Advanced Medical Treatment in the Developing World
- Increased Use of Disposable Instruments in Vitrectomy Surgery
- Development of New Microsurgical Instruments in Multiple Gauges
- Adoption of Targeted Laser and Radiation Therapy to Supplement Anti-VEGF Therapy
- Rapid Growth in Use of Telescopic IOLs and Retinal Implants

14

TH EDITION OF MARKET SCOPE'S "RETINAL SURGICAL DEVICE REPORT." Companies, investors, and entrepreneurs have used our reports over the past 20 years to assist in their planning and to better understand the ophthalmic market.

54

COMPANIES ARE PROFILED IN THE REPORT and we have included a listing of several additional companies that participate in the market.

350

PAGES LOADED WITH COMPREHENSIVE COVERAGE of market opportunities and challenges in the retinal surgical device industry.

1

OBJECTIVE: To provide you with a **Competitive Advantage** that comes from knowledge and fresh perspective on the trends driving the retinal surgical device market during the next five years.

A COMPLETE REPORT DESCRIPTION & TABLE OF CONTENTS FOLLOWS:

Market Scope

Author: William Freeman

Released: April 2017

What's New: We look for nearly 6 percent per year growth in retinal surgical product revenues with the market totaling \$1.9 billion in 2017 and growing to \$2.5 billion in 2022. This year's report includes a section on hypersonic vitrectomy, an updated listing of new retina surgical instruments (disposable and reusable), and a section on the history of vitrectomy machine technology with timelines and product illustrations.

Our report on the retinal surgical device market is in its 14th edition, and it is the leading industry source for accurate and relevant information on all aspects of the global retinal surgical device market. We cover prevalence and forecasts for retinal diseases and conditions. We discuss therapeutic approaches and describe both commercialized products and products in the pipeline. We analyze unit demand and revenue, and forecast future performance over the next five years. We also include market share data and discuss key strategic issues.

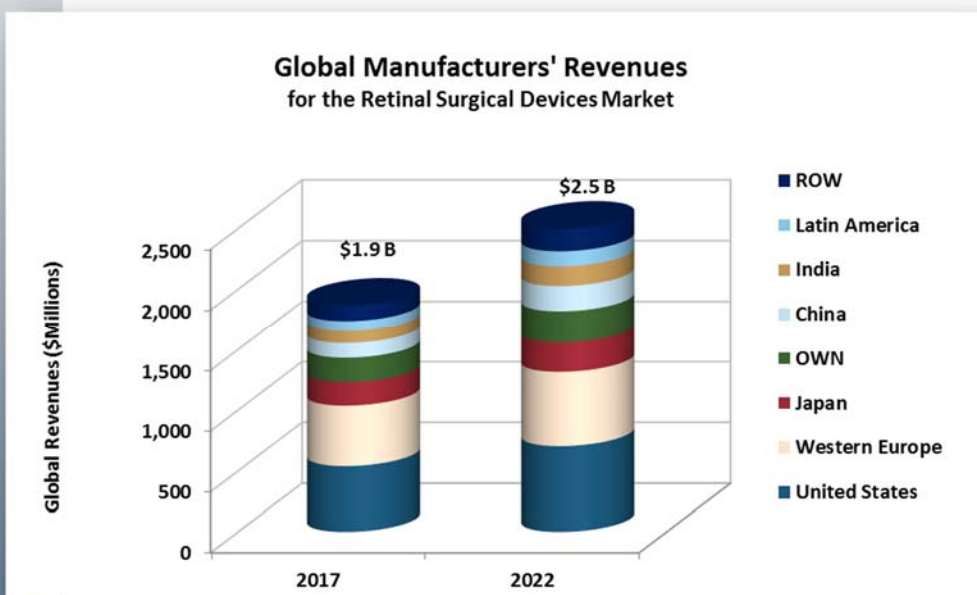

In our comprehensive reports, we analyze worldwide markets using the following geographic/economic categories: the US, Western Europe, Japan, Other Wealthy Nations, China, India, Latin America, and Rest of World. This report includes market data for 2016, and we forecast market performance through 2022.

2017 Retinal Surgical Device Report:

Market Scope's **2017 Retinal Surgical Device Report** provides in-depth coverage of the equipment and devices used in retinal surgical procedures.

Our Report is Organized into Key Areas and Includes:

- Review of Retinal Physiology, Diseases, and Procedures
- Prevalence Data
- Patient Economics and Reimbursement
- Retinal Specialists and Societies
- Vitrectomy Machines and Machine Packs
- Hemostatic Devices
- Cryosurgical Systems
- Light-Source Consoles and Illuminator Probes
- Scleral Buckles, Silicone Oil, and Ocular Gases
- Retinal Surgical Instruments
- Non-Invasive Procedures (Laser and Radiation)
- Single-Use Retinal Surgical Products
- Implantable Telescopic IOLs
- Artificial Vision Technologies
- Five-Year Forecasts for Market Performance
- 54 Company Profiles
- 85 Color Tables and 65 Color Figures

The data included in our reports is based on surveys of ophthalmologists, reviews of clinical data, interviews with company executives, and analysis of company financial data.

A Global Market Analysis for 2016 to 2022

The Report at a Glance

EXECUTIVE SUMMARY

Market by Region
Leading Competitors
Retinal Disease Summary

PHYSIOLOGY, DISEASES, AND PROCEDURES

Shifting Mix in Procedures versus Pharmaceuticals

THE RETINA

Retinal Anatomy and Physiology
Treatment
Treatment Modalities
Addressing Vision Loss

AGE-RELATED MACULAR DEGENERATION

Dry AMD
Geographic Atrophy (GA)
Neovascular AMD
Polypoidal Choroidal Vasculopathy
Simultaneous Neovascular AMD and GA
AMD Risk Factors
Symptoms of AMD
Diagnosis and Management
Diagnostic Technologies
Laser Photocoagulation
Non-invasive Radiation Therapy
Pharmaceutical Therapies
Investigational Agents for AMD

DIABETIC RETINOPATHY AND DME

Diabetes
Diabetic Retinopathy
Nonproliferative Diabetic Retinopathy
Proliferative Diabetic Retinopathy (PDR)
Diabetic Macular Edema (DME)
Vision-Threatening Diabetic Eye Disease
DR and DME Risk Factors
Blood Glucose, Blood Pressure, and Blood Lipids
Race and Ethnicity
Glitazones and DME
Diagnosis and Management
Laser Photocoagulation
Vitrectomy
Cryotherapy
Pharmaceutical Therapy
Investigational Pharmaceuticals

RETINAL VEIN OCCLUSION

Central Retinal Vein Occlusion
Branch Retinal Vein Occlusion
Risk Factors
Diseases and Conditions
Gender
Lifestyle Factors
Diagnosis and Management
Treatment Modalities

ADHESIONS, HOLES, TEARS, DETACHMENTS

Vitreous Changes and Posterior Vitreous Detachment
Symptomatic Vitreomacular Adhesion (VMA)
Treatment
Retinal Tears, Holes, Detachments
Retinal Detachment
Proliferative Vitreoretinopathy
Treatments

ADDITIONAL RETINAL DISEASES AND CONDITIONS

Retinitis Pigmentosa and Other Inherited Retinopathies
Treatment
Other Retinal Diseases
Central Serous Chorioretinopathy (CSCR)
CMV Retinitis
CNV due to Pathologic Myopia
Epiretinal Membrane (ERM)
Infectious Inflammatory Chorioretinal Diseases
Retinal Artery Occlusion
Retinoblastoma
Retinopathy of Prematurity (ROP)

GLOBAL FORECASTS FOR RETINAL DISEASES

Estimates for Age-Related Macular Degeneration
Age-Related Macular Degeneration by Category
Estimates for Diabetic Eye Diseases (DR and DME)
Diabetic Eye Disease by Category
Estimates for Retinal Vein Occlusion
Retinal Vein Occlusion by Category
Estimates for Retinal Holes, Tears, Detachments
Estimates for Inherited Retinopathies
Estimates for Other Retinal Diseases

PATIENT ECONOMICS AND REIMBURSEMENT

Blindness and Its Causes Worldwide
Shift in Vision Loss in Exudative Disorders
Treatment, Access, and Cost

RETINA SPECIALISTS

Retinal Training
The Retina Subspecialty Worldwide
Vitreo-retinal Services
Diagnosing and Monitoring
Diagnostic Lenses
Electrophysiological Testing Equipment
Fluorescein Angiography (FA)
Fundus Autofluorescence (FAF)
Fundus Photography
Indirect Ophthalmoscopy
Indocyanine Green Angiography (ICGA)
Ocular Coherence Tomography (OCT)
Preferential Hyperacuity Perimetry (PHP)
Scanning Laser Ophthalmoscopes (SLOs)
Ultrasound
New Diagnostic Technologies
Intravitreal Injections
Laser Photoactivation
Laser Photocoagulation
Surgical procedures

VITRECTOMY

Clinical Reasons for Vitrectomy
Macular Pucker, Holes, and Minor Tears
Repair of Retinal Detachments
Diabetic Retinopathy, Proliferative Diabetic Retinopathy and DME
Vitreous Hemorrhage/Floaters
Vitrectomy for Other Retinal Conditions
Forecast for Vitrectomy Growth
Pharmacological Vitreolytics and Potential Effects on Future Vitrectomies
ThromboGenics' Jetrea (Ocriplasmin)
Uses for Jetrea

About Market Scope

Market Scope is recognized as the leading source for accurate and timely industry information in ophthalmology. We have been conducting primary research and producing comprehensive reports on ophthalmic markets since 1996. Our data, analysis, and forecasts serve as starting points for many annual planning cycles, strategic plans, acquisition analyses, and return-on-investment decisions in the industry. In addition, our information is routinely included in annual reports, SEC filings, and investor presentations by leading ophthalmic companies.
